

Overview:

T/MAG-BASEB | Teslabase - brown 700mic

Choose the brown magnetic-receptive Teslabase for the most cost-effective base layer when using Teslaflex printable ferrous film. With a pull strength of >35 g/cm², once this self-adhesive base is applied, you can add several printed Teslaflex photographic and graphic layers as required. Together they create an innovative magnetic-media system designed for fast and easily-replaceable graphics making it ideal for quick-change advertising and promotion.

- Thick magnetic self-adhesive base
- High-strength magnetic grab that doesn't lose strength over time
- For use with Teslaflex ferrous films
- Teslabase can be left in-situ long term; change the ferrous graphics over and over again
- Water-based adhesive
- Perfect for quick change branding and marketing
- Fire-rated

Applications:

This product has been specifically designed for fast and easy replaceable graphics, perfect for short-term branding and marketing

Compatibility:

This product has been tested for use with the following ink technologies;

Usage and durability:

Teslabase is a two-part system using Teslabase and Teslaflex

Teslabase is magnetic permanent, the pull force will remain stable if not damaged by fire or a strong high-intensity magnetic field

Use of heavy rubber roller recommended to apply base to gain full adhesion of product.

Specifications:

Substrate weight	
Substrate thickness	700 mic
Construction	700mic isotropic magnetic base with 200mic adhesive
Pole pitch	2.0mm
Pull strength	>35g/cm ²

Availability:

Our products come in many shapes & sizes, however, as market requirements change, so do the range of sizes we produce and hold in stock. The following reflects the main product dimensions we supply this product in as at the time this data sheet was created. If the size you need isn't listed, please speak to us to see if it can be made especially for you.

Product Code (SKU)	Width	Length
T/BASEB/62015/76/1	620 mm	15 M
